

FOR IMMEDIATE RELEASE August 3, 2023 NYSE Symbol: CPK

CHESAPEAKE UTILITIES CORPORATION REPORTS SECOND QUARTER 2023 RESULTS

- Earnings per share ("EPS")* for the second quarter of 2023 was \$0.90 compared to \$0.96 per share for the second quarter of 2022 which included a non-recurring gain of \$0.08 per share;
 Operating income for the quarter grew 7.1 percent from the prior year quarter to \$28.3 million
- Year-to-date EPS was \$2.94 compared to \$3.04 per share in the prior year
- Customer consumption was significantly impacted by historically warmer temperatures during the quarter and the six months ended June 30, 2023, lowering EPS by approximately \$0.09 and \$0.38 per share, respectively
- Adjusted gross margin growth of \$7.4 million was driven by regulatory initiatives, natural
 gas organic growth, increased demand for CNG, RNG and LNG services and continued
 pipeline expansion projects
- Multiple new project updates, including the announcement of two new pipeline projects that will drive future earnings growth
- Reiteration of long-term earnings and capital expenditures guidance, including continued capital expenditure guidance of \$200 million to \$230 million for 2023

<u>Dover, Delaware</u> — Chesapeake Utilities Corporation (NYSE: CPK) ("Chesapeake Utilities" or the "Company") today announced financial results for the three and six months ended June 30, 2023.

In the second quarter of 2023, the Company's net income was \$16.1 million, compared to \$17.1 million reported in the same quarter of 2022. EPS in the quarter was \$0.90 per share, compared to \$0.96 per share reported in the same prior-year period. Net income in the second quarter of 2022 also included a \$1.9 million one-time building sale gain, or EPS of \$0.08.

Earnings during the second quarter of 2023 were driven by contributions from the Company's Florida natural gas base rate proceeding, organic growth in the Company's natural gas distribution businesses, increased propane margins and fees, continued pipeline expansion projects, increased demand for compressed natural gas ("CNG"), renewable natural gas ("RNG") and liquefied natural gas ("LNG") services and incremental contributions associated with regulated infrastructure programs. These contributions were partially offset by the continued presence of significantly warmer weather on the Delmarva Peninsula and in Ohio during the second quarter of 2023 as well as higher interest expense associated with the Company's short-term borrowings.

For the first half of 2023, net income was \$52.5 million compared to \$54.0 million for the same period in 2022. EPS for the first half of 2023 was \$2.94 compared to \$3.04 per share reported in the same prior-year period.

For the first half of 2023, earnings were impacted by significantly warmer weather in our service territories during which, the Delmarva Peninsula and Ohio experienced temperatures that were more than 20 percent higher than historical averages. The impacts of weather for the first half of 2023 were primarily offset by the factors noted above.

"The Company's growth on a year-to-date basis continues to be overshadowed by warmer temperatures and the ongoing inflationary environment," commented Jeff Householder, president and CEO. "In the first half of 2023, growth investments, regulatory initiatives and continued expense management, enabled us to reach within \$0.10 per share of 2022 year-to-date EPS, despite a cumulative gross weather impact of \$0.38 per share," continued Householder. "During the second quarter alone, our adjusted gross margin and operating income grew by 8.1 percent and 7.1 percent, respectively, driven by contributions from the natural gas rate case settlement in Florida and organic residential customer growth that continues to track above industry levels at 5.5 percent and 4.0 percent, respectively for our Delmarva and Florida natural gas distribution businesses."

"We continue to find ways to drive incremental growth, even in the midst of challenging weather conditions and continued economic pressures. Within this release, we introduced two new pipeline projects – Lake Wales, which was an acquisition, is already contributing to the bottom line and Newberry, which was recently approved by the Florida Public Service Commission. We also recently received approval for our regulatory filing with the Florida PSC for the GUARD program. Demand for new pipeline infrastructure continues to be robust, largely driven by customer growth. Our team remains ever focused on executing on our growth strategy, achieving another record year of performance and driving increased shareholder value," concluded Householder.

Capital Investment and Earnings Guidance Update

The Company continues to support its long-term capital expenditures and EPS guidance ranges. The Company's capital expenditures guidance ranges from \$900 million to \$1.1 billion for the five years ended 2025, while the EPS guidance range is \$6.15 to \$6.35 per share for 2025. Capital expenditures for the six months ended June 30, 2023 were \$91.9 million, and the full year estimate for 2023 continues to range from \$200 million to \$230 million.

*Unless otherwise noted, EPS information is presented on a diluted basis.

Non-GAAP Financial Measures

**This press release including the tables herein, include references to both Generally Accepted Accounting Principles ("GAAP") and non-GAAP financial measures, including Adjusted Gross Margin. A "non-GAAP financial measure" is generally defined as a numerical measure of a company's historical or future performance that includes or excludes amounts, or that is subject to adjustments, so as to be different from the most directly comparable measure calculated or presented in accordance with GAAP. Our management believes certain non-GAAP financial measures, when considered together with GAAP financial measures, provide information that is useful to investors in understanding period-over-period operating results separate and apart from items that may, or could, have a disproportionately positive or negative impact on results in any particular period.

The Company calculates Adjusted Gross Margin by deducting the purchased cost of natural gas, propane and electricity and the cost of labor spent on direct revenue-producing activities from operating revenues.

The costs included in Adjusted Gross Margin exclude depreciation and amortization and certain costs presented in operations and maintenance expenses in accordance with regulatory requirements. Adjusted Gross Margin should not be considered an alternative to Gross Margin under US GAAP which is defined as the excess of sales over cost of goods sold. The Company believes that Adjusted Gross Margin, although a non-GAAP measure, is useful and meaningful to investors as a basis for making investment decisions. It provides investors with information that demonstrates the profitability achieved by the Company under allowed rates for regulated energy operations and under the Company's competitive pricing structures for unregulated energy operations. The Company's management uses Adjusted Gross Margin as one of the financial measures in assessing a business unit's performance. Other companies may calculate Adjusted Gross Margin in a different manner.

Reconciliation of GAAP to Non-GAAP Adjusted Gross Margin

Operations & maintenance expenses which are deemed to be directly attributable to revenue producing activities have been separately presented above in order to calculate Gross Margin as defined under US GAAP.

Operating Results for the Quarters Ended June 30, 2023 and 2022

Consolidated Results

Three Months Ended

June 30,						
	2023		2022	(Change	Percent Change
\$	99,800	\$	92,354	\$	7,446	8.1 %
	23,628		22,854		774	3.4 %
	47,826		43,031		4,795	11.1 %
\$	28,346	\$	26,469	\$	1,877	7.1 %
	\$ \$	2023 \$ 99,800 23,628 47,826	2023 \$ 99,800 \$ 23,628 47,826	\$ 99,800 \$ 92,354 23,628 22,854 47,826 43,031	2023 2022 C \$ 99,800 \$ 92,354 \$ 23,628 22,854 47,826 43,031	2023 2022 Change \$ 99,800 \$ 92,354 \$ 7,446 23,628 22,854 774 47,826 43,031 4,795

Operating income for the second quarter of 2023 was \$28.3 million, an increase of \$1.9 million or 7.1 percent compared to the same period in 2022. Adjusted gross margin in the second quarter of 2023 was positively impacted by contributions from the Company's Florida natural gas base rate proceeding, organic growth in the Company's natural gas distribution businesses, increased propane margins and fees, continued pipeline expansion projects, increased demand for CNG, RNG and LNG services and incremental contributions associated with regulated infrastructure programs. These increases in adjusted gross margin were partially offset by reduced consumption, including the continued effects of warmer temperatures experienced during the second quarter of 2023. Higher operating expenses were largely associated with increased employee costs driven by growth initiatives, the ongoing competitive labor market and higher benefits costs compared to the prior-year period. Operating income was also impacted by higher property taxes during the second quarter of 2023.

Regulated Energy Segment

Three Months Ended June 30,

(in thousands)	2023	2022	Change	Percent Change
Adjusted gross margin**	\$ 77,255	\$ 70,620	\$ 6,635	9.4 %
Depreciation, amortization and property taxes	18,854	18,380	474	2.6 %
Other operating expenses	29,110	 26,399	2,711	10.3 %
Operating income	\$ 29,291	\$ 25,841	\$ 3,450	13.4 %

The key components of the increase in adjusted gross margin** are shown below:

(in thousands)

Rate changes associated with the Florida natural gas base rate proceeding (1)	\$ 3,873
Natural gas growth including conversions (excluding service expansions)	1,844
Natural gas transmission service expansions	1,113
Increased adjusted gross margin from off-system natural gas capacity sales	637
Contributions from regulated infrastructure programs	395
Changes in customer consumption - primarily related to weather	(1,148)
Other variances	(79)
Quarter-over-quarter increase in adjusted gross margin**	\$ 6,635

¹⁾ Includes adjusted gross margin contributions from permanent base rates that became effective in March 2023.

The major components of the increase in other operating expenses are as follows:

(in thousands)

Increased payroll, benefits and other employee-related expenses	\$ 1,305
Increased facilities expenses, maintenance costs and outside services	682
Increased costs related to credit and collections	345
Other variances	379
Quarter-over-quarter increase in other operating expenses	\$ 2,711

Unregulated Energy Segment

	 Three Mor June				
(in thousands)	2023	2022	(Change	Percent Change

Sustainability Initiatives

In May 2023, Chesapeake Utilities published its most recent sustainability report, and the Company continues to remain steadfast in regards to its sustainability commitments, including:

- Maintaining a leading role in the journey to a lower carbon future in its service areas.
- Continuing to promote a diverse and inclusive workplace and further the sustainability of the communities it serves.
- Operating its businesses with integrity and the highest ethical standards.

These commitments guide the Company's mission to deliver energy that makes life better for the people and communities it serves. They impact every aspect of the Company and the relationships it has with its stakeholders. The Company encourages its investors to review the report, which can be accessed on the Company's website, and welcomes feedback as it continues to enhance its sustainability disclosures.

Forward-Looking Statements

Matters included in this release may include forward-looking statements that involve risks and uncertainties. Actual results may differ materially from those in the forward-looking statements. Please refer to the Safe Harbor for Forward-Looking Statements in the Company's 2022 Annual Report on Form 10-K and Quarterly Report on Form 10-Q for the second quarter of 2023 for further information on the risks and uncertainties related to the Company's forward-looking statements.

Conference Call

Chesapeake Utilities (NYSE: CPK) will host a conference call on Friday, August 4, 2023 at 8:30 a.m. Eastern Time to discuss the Company's financial results for the three and six months ended June 30, 2023. To listen to the Company's conference call via <u>live webcast</u>, please visit the Events & Presentations section of the Investors page on <u>www.chpk.com</u>. For investors and analysts that wish to participate by phone for the question and answer portion of the call, please use the following dial-in information:

Toll-free: 800.343.5172 International: 203.518.9848 Conference ID: CPKQ223

A replay of the presentation will be made available on the previously noted website following the conclusion of the call.

About Chesapeake Utilities Corporation

Chesapeake Utilities Corporation is a diversified energy delivery company, listed on the New York Stock Exchange. Chesapeake Utilities Corporation offers sustainable energy solutions through its natural gas transmission and distribution, electricity generation and distribution, propane gas distribution, mobile compressed natural gas utility services and solutions, and other businesses.

Please note that Chesapeake Utilities Corporation is not affiliated with Chesapeake Energy, an oil and natural gas exploration company headquartered in Oklahoma City, Oklahoma.

^{*}Refer to Major Projects and Initiatives Table for additional information.

Recently Completed and Ongoing Major Projects and Initiatives

The Company constantly pursues and develops additional projects and initiatives to serve existing and new customers, further grow its businesses and earnings, and increase shareholder value. The following table includes the major projects and initiatives recently completed and currently underway. Major projects and initiatives that have generated consistent year-over-year adjusted gross margin contributions are removed from the table at the beginning of the next calendar year. The discussion of the Company's major projects accompanying this table, includes those projects which began generating adjusted gross margin in the current year, or those which are expected to contribute adjusted gross margin beginning in future years. A comprehensive discussion of all projects reflected below can be found in the Company's second quarter 2023 Quarterly Report on Form 10-Q. The Company's practice is to add new projects and initiatives to this table once negotiations or details are substantially final and/or the associated earnings can be estimated.

Detailed Discussion of Major Projects and Initiatives

Pipeline Expansions

Southern Expansion

Eastern Shore plans to install a new natural gas driven compressor skid unit at its existing Bridgeville, Delaware compressor station that will provide 7,300 Dts/d of incremental firm transportation pipeline capacity. The Company obtained FERC approval for this project in December 2022 and it is currently estimated to go into service in the fourth quarter of 2023.

Beachside Pipeline Expansion

In June 2021, Peninsula Pipeline and an unrelated party, Florida City Gas, entered into a Transportation Service Agreement for an incremental 10,176 Dts/d of firm service in Indian River County, Florida, to support Florida City Gas' growth along the Indian River's barrier island. As part of this agreement, Peninsula Pipeline constructed approximately 11.3 miles of pipeline from its existing pipeline in the Sebastian, Florida area east under the Intercoastal Waterway and southward on the barrier island. Construction is complete and the project went into service in April 2023.

North Ocean City Connector

During the second quarter of 2022, the Company began construction of an extension of service into North Ocean City, Maryland. The Company's Delaware natural gas division and its subsidiary, Sandpiper Energy, Inc. installed approximately 5.7 miles of pipeline across southern Sussex County, Delaware to Fenwick Island, Delaware and Worcester County, Maryland. The project reinforces the Company's existing system in Ocean City, Maryland and enables incremental growth along the pipeline. Construction of this project was completed in the second quarter of 2023. Adjusted gross margin in connection with this project is expected to be recognized contingent upon the completion and approval of the Company's next rate case in Maryland.

St. Cloud / Twin Lakes Expansion

In July 2022, Peninsula Pipeline filed a petition with the Public Service Commission ("PSC") for the State of Florida for approval of its Transportation Service Agreement with the Company's Florida subsidiary, Florida Public Utilities ("FPU"), for an additional 2,400 Dts/day of firm service in the St. Cloud, Florida area. As part of this agreement, Peninsula Pipeline will construct a pipeline extension and regulator station for FPU. The extension will be used to support new incremental load due to growth in the area, including providing service, most immediately, to the residential development Twin Lakes. The expansion will also improve reliability and provide operational benefits to FPU's existing distribution system in the area, supporting future growth. Construction is forecasted to be complete in the third quarter of 2023.

Wildlight Expansion

In August 2022, Peninsula Pipeline and FPU filed a joint petition with the Florida PSC for approval of its Transportation Service Agreement associated with the Wildlight planned community located in Nassau County, Florida. The project enables the Company to meet the significant growing demand for service in Yulee, Florida. The agreement allows the Company to build the project during the construction and build-out of the community, and charge the reservation rate as each phase of the project goes into service. Construction of the pipeline facilities will occur in two separate phases. Phase one consists of three

extensions with associated facilities, and a gas injection interconnect with associated facilities. Phase two will consist of two additional pipeline extensions. Various phases of the project commenced in the first quarter of 2023, with construction on the overall project continuing through 2025.

Lake Wales

In February 2023, Peninsula Pipeline filed a petition with the Florida PSC for approval of its Transportation Service Agreement with the Company's Florida natural gas division, FPU for an additional 9,000 Dt/d of firm service in the Lake Wales, Florida area. The PSC approved the petition in April 2023. Approval of the agreement enabled Peninsula Pipeline to complete the acquisition of an existing pipeline in May 2023 that is being utilized to serve the Company's current natural gas customers as well as new customers.

Newberry

In April 2023, Peninsula Pipeline filed a petition with the Florida PSC for approval of its Transportation Service Agreement with FPU for an additional 8,000 Dt/d of firm service in the Newberry, Florida area. In July 2023, the Florida PSC approved the Company's recommendation to proceed with this project. Peninsula Pipeline will construct a pipeline extension which will be used by FPU to support the development of a natural gas distribution system to provide gas service to the City of Newberry.

CNG/RNG/LNG Transportation and Infrastructure

The Company has made a commitment to meet customer demand for CNG, RNG and LNG in the markets we serve. This has included making investments within Marlin Gas Services to be able to transport these products through its virtual pipeline fleet to customers. To date, the Company has also made an infrastructure investment in Ohio, enabling RNG to fuel a third-party landfill fleet and to transport RNG to end use customers off its pipeline system. Similarly, the Company announced in March 2022, the opening of a high-capacity CNG truck and tube trailer fueling station in Port Wentworth, Georgia. As one of the largest public access CNG stations on the East Coast, it will offer a RNG option to customers in the near future. The Company constructed the station in partnership with Atlanta Gas Light, a subsidiary of Southern Company Gas.

The Company is also involved in various other projects, all at various stages and all with different opportunities to participate across the energy value chain. In many of these projects, Marlin will play a key role in ensuring the RNG is transported to one of the Company's many pipeline systems where it will be injected. The Company includes its RNG transportation services and infrastructure related adjusted gross margin from across the organization in combination with CNG and LNG projects.

As new projects are finalized, we will provide additional detail on those projects at that time.

Discussed below is a current project in which we are in the construction phase:

Full Circle Dairy

In February 2023, the Company announced plans to construct, own and operate a dairy manure RNG facility at Full Circle Dairy in Madison County, Florida. The project consists of a facility converting dairy manure to RNG and transportation assets to bring the gas to market. The first injection of RNG is projected to occur in the first half of 2024.

Regulatory Initiatives

Florida Gas Utility Access and Replacement Directive ("GUARD") Program

In February 2023, FPU filed a petition with the Florida PSC for approval of the GUARD program. GUARD is a ten-year program to enhance the safety, reliability, and accessibility of portions of the Company's natural gas distribution system. The Company has identified various categories of projects to be included in GUARD, which include the relocation of mains and service lines located in rear easements and other difficult to access areas to the front of the street, the replacement of problematic distribution mains, service lines, and M&R equipment and system reliability projects. In August 2023, the Florida PSC approved the GUARD program, with the exception of reliability projects with an approximate value of \$10 million. The remainder of the program was approved as filed, which included \$205 million of capital expenditures projected to be spent over a 10-year period.

Other Major Factors Influencing Adjusted Gross Margin

Weather and Consumption

For the first half of 2023, lower consumption driven by weather experienced primarily during the first quarter resulted in a \$9.1 million decrease in adjusted gross margin compared to the same period in 2022. The impact to adjusted gross margin was largely the result of unprecedented temperatures in the Company's northern service territories that were more than 20 percent higher than historical averages. Assuming normal temperatures, as detailed below, adjusted gross margin would have been higher by \$10.3 million. The following table summarizes HDD and CDD variances from the 10-year average HDD/CDD ("Normal") for the three and six months ended June 30, 2023 and 2022.

HDD and CDD Information

	Three Mont	hs Ended		Six Month	s Ended

Natural Gas Distribution Growth

The average number of residential customers served on the Delmarva Peninsula increased by approximately 5.5 percent and 5.7 percent, respectively, for the three and six months ended June 30, 2023, while Florida customers increased by 4.0 percent and 4.2 percent, respectively, for the three and six month periods. On the Delmarva Peninsula, a larger percentage of the adjusted gross margin growth was generated from residential growth given the expansion of gas into new housing communities and conversions to natural gas as our distribution infrastructure continues to build out. In Florida, as new communities continue to build out due to population growth and infrastructure is added to support the growth, there is increased load from both residential customers as well as new commercial and industrial customers. The details are provided in the following table:

	Adjusted Gross Margin**								
	Three Months En	ded June 30, 2023	Six Months Ended June 30, 2023						
(in thousands)	Delmarva Peninsula	Florida	Delmarva	Florida					
Customer growth:									
Residential	\$ 476	\$ 347	\$ 1,086	\$ 663					
Commercial and industrial	241	780	453	1,164					
Total customer growth (1)	\$ 717	\$ 1,127	\$ 1,539	\$ 1,827					

⁽¹⁾ Customer growth amounts for Florida include the effects of revised rates associated with the Company's natural gas base rate proceeding.

<u>Capital Investment Growth and Capital Structure Updates</u>

The Company's capital expenditures were \$91.9 million for the six months ended June 30, 2023. The following table shows a range of the forecasted 2023 capital expenditures by segment and by business line:

	2023			
(in thousands)	Low High		High	
Regulated Energy:				
Natural gas distribution	\$	89,000	\$	100,000
Natural gas transmission		50,000		60,000
Electric distribution		13,000		15,000
Total Regulated Energy		152,000		175,000
Unregulated Energy:				
Propane distribution		15,000		16,000
Energy transmission		8,000		9,000
Other unregulated energy		23,000		27,000
Total Unregulated Energy		46,000		52,000
Other:				
Corporate and other businesses		2,000		3,000
Total 2023 Forecasted Capital Expenditures	\$	200,000	\$	230,000

The capital expenditure projection is subject to continuous review and modification. Actual capital requirements may vary from the above estimates due to a number of factors, including changing economic conditions, supply chain disruptions, capital delays that are greater than currently anticipated, customer

growth in existing areas, regulation, new growth or acquisition opportunities and availability of capital. Historically, actual capital expenditures have typically lagged behind the forecasted amounts.

The Company's target ratio of equity to total capitalization, including short-term borrowings, is between 50 and 60 percent. The Company's equity to total capitalization ratio, including short-term borrowings, was approximately 53 percent as of June 30, 2023.

⁽¹⁾ In accordance with the Florida PSC approval of our natural gas base rate proceeding, effective March 1, 2023, our natural gas distribution businesses in Florida (FPU, FPU-Indiantown division, FPU-Fort Meade division and Chesapeake Utilities CFG division, collectively, "Florida natural gas distribution businesses") have been consolidated for rate-making purposes and amounts above are now being presented on a consolidated basis consistent with the final rate order.

⁽²⁾ Operating Revenues from "Other" sources include unbilled revenue, under (over) recoveries of fuel cost, conservation revenue, other miscellaneous charges, fees for billing services provided to third parties and adjustments for pass-through taxes.
